

# Clarification of the Criterion of Permanent Residence for the Purpose of Awarding the Accommodation Bursary

Pursuant to Article 5(2)(c) of the Scholarship and Bursary Rules, I am issuing this Rector's Decree specifying the criterion of permanent residence for the purpose of awarding the accommodation bursary.

## I. Method of establishing the criterion of permanent residence

- 1) For the purpose of awarding the accommodation bursary, the criterion of permanent residence is specified in such a way that the student may not have permanent residence in a municipality from which the average travel time by public transport to the municipality of Hradec Králové is less than 90 minutes (hereinafter referred to as the “**Travel Time**”). In the event that there are several public transport stops within one municipality, the Travel Time is the average of travel times from the individual stops within the municipality.
- 2) A list of municipalities that do not meet the criterion of permanent residence under paragraph 1 and thus exclude eligibility for the accommodation bursary is available on the website [www.uhk.cz/cs/univerzita-hradec-kralove/studium/stipendium](http://www.uhk.cz/cs/univerzita-hradec-kralove/studium/stipendium) and shall be updated for the next bursary period no later than on 1 June of each year following changes in timetables and travel times in the previous period.
- 3) The Travel Time referred to in paragraph 1 shall apply to a student studying in a study programme carried out on the basis of an agreement in cooperation with a university abroad only if he or she is present for study at the University of Hradec Králové during the bursary period. Otherwise, the municipality in which the student has his/her permanent residence is excluded from eligibility for the accommodation bursary.

## II. Final provisions

- 1) This Decree enters into force on the date of its signature.

In Hradec Králové, 17 July 2023

Prof. Ing. Kamil Kuča, Ph.D.,  
Rector
