For questions 36 – 50, read the text below and decide which answer A, B, C or D best fits each space. Only one answer is correct.

SMART CLOTHES

In the early period of human history, clothes were just animal skins or furs. As human beings learned how to **36)** ____ animals and grow crops, other **37)** ____ materials, such as wool, silk, linen and cotton were used. For thousands of years, clothing was made of these few materials. About fifty years ago, nylon was **38)** ____ followed by other synthetic **39)** _____. These were waterproof, hardwearing and easy to **40)** ____ but not always pleasant to touch and they could be uncomfortable in hot weather. By the 1970s, there were artificial materials that kept rain out and allowed the body to breathe. The **41)** ____ materials are much more advanced. They possess some very remarkable characteristics while at the same time being as comfortable to wear as silk or cotton, or so the manufacturers **42)** _____. Some new materials can **43)** ____ colour in response to sunlight. Some are unaffected when coffee or wine are **44)** ____ on them. These liquids just roll off instead of leaving **45)** _____, as would be the **46)** ____ with linen or cotton. Most remarkably of all, some of these materials **47)** ____ information technology. In a few years' time, we shall see "glove-phones", which will not only keep your hands warm but also **48)** ____ you to make and receive telephone calls. There are also materials which can function as radios. Your shirt or dress will receive and **49)** ____ radio signals – even after it has been washed! Such materials are smart in both **50)** ____ of the word. They are good-looking and also intelligent.
