

Erasmus+

University of Hradec Králové
Philosophical FacultyUniwersytet
Wrocławski

My Erasmus stay in Hradec Kralove was really colorful and full of positive emotions. From the very first day of my arrival an international office and their staff supported me and was really friendly and welcomed. Moreover, I have met many interesting people as far as living in the small town like Hradec Kralove gives you a possibility to become really close not only with the international students but with Czech as well.

Hradec Kralove University gives a fantastic opportunity for the Erasmus students to discover other cities of Czech Republic providing different trips. In addition, study program proposed for Erasmus students was incredibly immersive, allowing students to learn more about Czech culture and history. It was a wonderful opportunity to go deeper into the subjects you are interested in. The quality of the relationships with students during lectures, teachers' high standard of knowledge and inspirational guidance were exceptional. I believe that my experience in the University of Hradec Kralove will help me to pursue my career in future.

Along with this knowledge, I had an opportunity to visit different cities of Czech Republic and also to travel around Europe. In Hradec Kralove students can find variety of restaurants and cozy cafes downtown – the heart of European age-old town. In addition, university has great and friendly environment and the international office does an excellent job, supporting you and making you feel welcome.

All in all, I would highly recommend to take an Erasmus program to Hradec Kralove. The University attracts many international students from different countries thus giving you possibility to meet interesting people from all over the world. It is an experience for a lifetime!
