JAVIER

Universidad del Desarrollo

Javier Ibáñez, Santiago de Chile.

My exchange at the University of Hradec Kralove was incredible, because I had a unique experience in my life.

Beyond being an exchange student, I met a lot of different people from all over the world, as well as knowing many incredible and different places.

I also thank the University of Hradec Kralove for all the support they gave us throughout the semester, not only with the financial support but also for giving us all the spaces and opportunities to interact and meet more people.

The truth is that I would never have expected to receive this experience, because you leave your daily life and adapt to a new system, learn to meet your needs as an old and responsible person, and not under the continuous tutelage of parents, etc. It helped me grow as a person, to realize that this is the opportunity for all young people to

go to exchange and leave our "social bubble" in which we live every day.

Having lived with young people and with the same spirit of learning, know and have fun, I felt that was a good decision come to Hradec Kralove.

If I could go back to Hradec Kralove, I would do it immediately. However, I believe that I should give the

opportunity to those who have not yet lived the same thing that many of us took advantage of. Also, always we have to change and not stay in only one place because, as I said, it is better to leave the social circle we already know and dare to go to new places.

I am grateful for this experience to the University of Hradec Králové, the Universidad del Desarrollo, and to all those who were with me during this incredible semester. If someone has the interest to come, I think that it is a good decision.
