

First of all, I would like to say that Hradec Králové is very nice town. It is so quiet, clean and what is the most important – safe. In this place you cannot worry about anything because the people here are warm and welcoming. The town itself is the same as its inhabitants has a warm and cozy atmosphere. Hradec Králové is small, everything is close. There is absolutely everything to stay here. From historical landmarks and museums to a variety of modern entertainment venues. In general, a great town for students and life.

University of Hradec Králové is a very good university. They give definitely high-quality knowledge that can develop and guide your skills in the right direction. The University prepares good competitive specialists who can show their knowledge in the world scale. There is absolutely all for learning from library to the rest area. The classrooms and equipment are all in excellent condition. Studying here is a pleasure. In addition, I liked that the life of the University is very rich. Various entertaining events are always held.

Professors are very professional in their field. They speak English in very good level. It is easy to understand their lectures.

All professors are very loyal. The courses are very interesting and versatile. While studying on political science, I studied social work and business structures as well which is very interesting and suitable for life. I want to mark two subjects "Startup course for academics" and "Conversation in English". These two subjects were my favorites. The courses were conducted in a very interesting way, they've never been boring. Those were very informative and interesting lectures. I gained very good knowledge from them. To be honest, I did not have enough Czech language. I really liked this course, but it was not enough for me. I would like

to have more Czech language classes in a week. Czech was very easy to learn. The professor was amazing.

The schedule was great. You can manage everything. Studying, doing homework, preparing to seminars, practicing hobbies, even travelling that is all what student can do in one week, thanks to the smart schedule.

In addition, I would like to point out the work of the international office. They are good and prompt, always ready to help. Thank you very much for your attention!

Thanks to the University, I met many interesting people from all over the world and I made friends with them.

Thank you very much University of Hradec Králové for the amazing experience and the opportunity to know and see this wonderful world.
