

I studied in the Philosophical Faculty at UHK and all the courses are interesting. Some of the courses I took here were not related to my field of study in my home country and I have

never touched those topics before. However, they were all interesting and impressive and I learned many new things here. The teachers were really nice and helpful, they answered our questions patiently and gave us a lot of advices and comments regarding our assignments.

Hradec Králové is a lovely place, the White Tower located near the school is iconic, the view of Hradec Králové from this tallest landmark in the city is really beautiful and wonderful. The city is very convenient which you can get access to almost everywhere by bus. The dormitory is well located, there are several supermarkets and a shopping mall near it. We bought groceries from

these supermarkets and cooked in the dormitory. I also tried the Czech cuisine in Hradec Králové and found it quite tasty.

I enjoyed the stay in Hradec Králové and I hope to visit this wonderful place again!
