

Me and two of my classmates were happy enough to complete a semester of studies at the University of Hradec Králové. The experience will be remembered for life. Below I described the main points of my stay in the Czech Republic.

The procedure for obtaining a visa was fairly simple and straightforward. Thanks to the instructions that the coordinators sent us from the host university, we were able to quickly and efficiently get visas. The main thing turned out to be properly executed translations and questionnaires.

Russia is located a few hours from the Czech Republic. We landed in Prague and, thanks to the instructions of the coordinator, were able to get to our hostel without any problems. The day after our arrival, we visited the university and got acquainted with the rules and regulations. The system of selection of subjects of study was very convenient; we were able to visit many subjects and choose more interesting ones for us, which later studied the entire semester.

A separate item I want to talk about staying in a hostel. It was very comfortable. Everything you need was present in the rooms. You could always go to the reception, which worked around the clock. Accommodation in the Hostel has left only positive emotions.

It is worth noting the special approach of teachers to learning. All teachers in a special way present their subject, everyone is interested to convey knowledge to the student. Examinations also take place at the highest level; teachers in advance say that they will be on the exam and what they should prepare for, thanks to this the exam passes without stress.

Separately, it is worth noting the stag system in which the student can view all his progress. This system is very simple and clear, so that anyone will understand it.

A great bonus of learning is the opportunity to travel. First of all, my friends and I became acquainted with the Czech culture. We visited Prague, Brno, Pardubice, Velke Popovice and plan to visit Karlovy Vary before departure.

And of course in the Czech Republic, we did not stop and began to travel around Europe. We visited Poland, Austria, Hungary, France, the Netherlands, Italy, Spain, Luxembourg, Germany, Belgium. This is an incredible experience, which remains delighted. Moreover, thanks to the ISIC card, we have a lot where we received discounts.

In conclusion, I would like to thank you for the opportunity to study, as well as to thank our coordinator Tomáš for your active support and assistance throughout the studies.
