

# MY STUDENT EXCHANGE EXPERIENCE

ALISSON ANDREA MARTINEZ, BOLIVIA

*"It is a place I will carry in my heart with beautiful memories".*

When I arrived at Hradec Králové, I was surprised by the calm and beauty of the city because it is small, clean, and organized. At first, it was a little difficult to get used to such tranquility. Some people were very friendly and others not so much, but I learned many things living here that made me grow as a person.

I also learned to be completely independent, I met new people, new cultures, many new things in class and most importantly, I made great friends who became family.

The University of Hradec Králové has very nice classrooms and gardens. It is a place I will carry in my heart with beautiful memories, great friends and teachers, and new knowledge.

**The Flag Parade** was an event organized by the university where students walked through the city center with their flags. It was a great opportunity to make new friends and to know the historical places of Hradec Králové.
