

MY STUDENT EXCHANGE EXPERIENCE

ANA CARRASCOSO, SPAIN

*"My Erasmus
program was
amazing".*

When I first arrived to Hradec Kralove I thought it was a beautiful city with a great public transportation system. It wasn't difficult to move around the city because everything was accessible and close. It is a city that has a lot of services and you don't get bored here, such as the nice restaurants, bars and clubs, sports area right near the river, cinemas and much more. One of my favorite things of the Czech Republic is the gastronomy; the food has a special taste and I love it.

Regarding the university, when I saw the faculty building I was really impressed. The education was different from Spain as it was more practical. The courses I took were enjoyable and I learned a lot from them. Teachers were nice and the classes were fun. People in the university were friendly and it was very interesting to study with international students. Moreover, this helped me to improve my English and to be more sociable.

I lived in the Palachova dormitory, which was cheap and had a perfect location. I was ten minutes away from the faculty and next to a big shopping centre. Here I met my Erasmus friends. I got to make really good friends who turned into a family here and we had great times together. Also, I met people from other countries such as Argentina, Mexico, Armenia, and China, which helped me to know more about new cultures and to practice English with them.

To sum up, I found in Hrádec Kralové all the things I was looking for and my experience was amazing. I found incredible people from all over the world that made me feel at home and Palachova was a really cozy place because of them. It has been a personal and professional growth that I would definitely love to repeat.
