

MY STUDENT EXCHANGE EXPERIENCE

LUIS SALAZAR, VENEZUELA

*"My life as a UHK
student"*

Being part of this exchange program has definitely been one of the best experiences of my life so far; it changed it completely and I was able to do many things that a few years back I didn't even imagine. Staying here for almost a year taught me a lot of things about myself and about what I'm capable of, which makes me feel really grateful and motivated for the things that are to come.

Also, another important aspect of this program is the fact that I had the chance to meet people from literally all over the world and be able not only to learn about many different cultures, which is a very enriching experience, but also to share about my own which makes everything more special.

Travelling is also a great thing, and being in the Czech Republic allows you to visit a lot of nice places for a cheap price. There are many different castles, mountains and historical places that are worth visiting. You also get the chance to go around some other countries within Europe which is really cool as well. I definitely enjoyed travelling here and getting to know so many new places and things.

When it comes to school, most of my subjects were interesting and I had some really good teachers which not only were really into teaching but also into learning about the different places which students came from, I would say that made some classes way more dynamic and entertaining.

There were also some really nice events during the whole year that I was glad to participate in. They were one of the best ways to get to know nice people and exchange some of our own stories which was actually really nice. One of the events that is worth to mention was the one in which we went to a river to clean it up and spend the whole day sailing in a little canoe.

Last but not least, I would say that without a doubt one of the main things that makes this experience so great is people. During my stay here, I was able to make some good friends who were the main reason why I enjoyed my time here so much. We laughed, we cried, we drank, we partied, we travelled, and together we made some awesome memories that I will keep with me.

I know for sure I will always remember the good times I spent around here and the Czech Republic will always have a special place in my mind, especially considering the fact that I come from the other side of the world and that this was actually my first time abroad. I am very looking forward to return someday and have enough time to keep discovering this wonderful country.
