

# MY STUDENT EXCHANGE EXPERIENCE

MO - WEN CHANG , TAIWAN

*"My time in  
the UHK"*

I am from Taiwan. I will share some stories from my exchange experience at the University of Hradec Králové. From the first time I got to the Czech Republic, I was looking forward to living here. My exchange life started from the moment my buddy picked me up at the airport. He was the first person I met in the Czech Republic and he was a very kind person. He took me to the dormitories and guided me, which was a very good starting for me.

The Philosophical Faculty has a lot of enriching courses which were very interesting for me. I chose seven courses such as Czech history, Czech language, and a course on politics. It was a pleasure to get to know this incredible country and to communicate with my classmates who were from different countries. These cultural and life exchanges have made me discover the world a little bit more.

Another positive thing is that I had enough time to travel around Europe. This picture on the right was taken on my first trip abroad. I went to Munich, Germany to participate in the Oktoberfest with some friends. This was a great experience and a journey that made me know European culture better.

Additionally, I must say that during free time and holidays, the buddy system organized a lot of activities for exchange students to know each other and communicate. I think that these kinds of meetings were really meaningful since through them I got to learn a lot of things and I was able to see the differences among countries and cultures, which enriched my worldview.
