

MY STUDENT EXCHANGE EXPERIENCE

WAI FUNG LEUNG, HONG KONG

"My stay and exchange experience at the University of Hradec Kralove was an excellent one"

Through this program, I met a lot of people from different countries and I got to know their cultures. Also, by spending time with them during trips, classes, and meals, I could eventually experience the in-depth cultural differences and daily habits of people, some of which are unique and eye-opening.

On the academic side, the University of Hradec Kralove offered a huge variety of courses for us to choose, and with experienced and friendly professors, the lessons became very fruitful and interesting.

On daily living, locals and officers in the city are friendly and helpful as well. Most of the time people are efficient and supportive, together with (relatively) cheap daily expenses and quality service/products, Hradec Kralove is an ideal place for exchange students to spend their semester here.

Overall speaking, the University of Hradec Kralove is an amazing platform for people to gather around. It creates unique bonds and unforgettable moments which make the stay a comfortable and exciting one.
