MY STUDENT EXCHANGE EXPERIENCE

ANTONINO AMATO

ITALY, UNIVERSITY OF PALERMO

WINTER TERM 2020-2021

Even with the current covid situation, this experience helped me understand my limits and acquire some directions for growth. The courses of the university gave me another point of view within my field of study (history); in this way, I will have a more complete vision of the historical phenomena.

I had the pleasure of meeting students from other countries. Their knowledge and way of embodying their country's history gave me a lot and maybe lifelong friendships. In the end, I can say that I very much liked Hradec Králové, with all its green spaces and big buildings, with its snow and its silent landscape during the nights.

Thanks for this experience.
