

MY STUDENT EXCHANGE EXPERIENCE

ARIELE MARQUES

BRAZIL

SUMMER TERM 2021-2022

The opportunity to go on an academic exchange is one of my dreams that came true. During this time, I had the chance to get to know different study methodologies, class structures, teachers' didactics and totally new content. More than that, it was a life experience that made me grow as a person, taught me how to deal with different cultures and minds (made me learn from them!), gave me international friends, broadened my perspective, and showed me how to be more independent... In short, after all, it was a period of self-knowledge. It was definitely the most important step I've taken in my life so far, and I would do it all over again.
