

## Cosmopoly Project („Kosmopolita“)

Common project of the Philosophical Faculty, University of Hradec Králové and [elementary school SNP](#).

It takes place every year in May/June in the building of elementary school SNP ([Základní škola, Hradec Králové, tř. SNP 694 tř. SNP 694, Hradec Králové 3, 500 03](#)).

Non-European international students introduce their home countries to the pupils from 10 to 15 years old of the elementary school. They make presentations about geography, interesting facts, culture, examples of language, sing a songs, dance, make quizes for children, etc. Students always prepare a presentation in the classroom (not only PowerPoint, but also try to make it interactive and involve pupils as much as possible) and the pupils of each class alternate on presentations, so each country is presented several times throughout the day. Regarding the fact elementary school is focused on foreign languages education, all the presentations are in English and pupils are able to understand them and discuss particular topics with students of the faculty. Event receives very positive feedback from pupils, their parents, as well as from international students.

There were already two projects in 2018 and 2019:

In 2018 (29th – 30th May 2018), around 20 semestral international students of PF UHK from 9 Latin-American and African countries participated in the project.
