

MY STUDENT EXCHANGE EXPERIENCE

DIEGO CARVAJAL MANTILLA

ECUADOR

SUMMER TERM 2021-2022

I'm a Master's student of Comparative Politics at FLACSO Ecuador, doing my Erasmus exchange at the UHK. Having this experience in the Czech Republic has been very rewarding from different points of view. As an international student, I have had the opportunity to get to know different cultures through my classmates and roommates. I have also had the opportunity to broaden my knowledge by combining student life with European culture.

From the beginning, I have felt very comfortable at the UHK; teachers and colleagues make the educational experience enriching so we can acquire new skills that will help us in the future to be professionals with a broader vision, global reality and to contribute with ideas for the development of our countries.

The courses I have taken at the UHK during the summer semester have helped me a lot to compare the development processes of Europe and Latin America. All lecturers are highly qualified professionals in their fields and the methodology used at the UHK facilitates learning and motivates research.

Similarly, the coordinators from the International Office were very helpful, guiding me through the admission process and all the logistical matters I needed to manage to come here.

I also want to highlight the opportunity I have had to travel during my Erasmus experience in the Czech Republic; thanks to the scholarship I received from the European Union, I was able to travel to several European countries, experience their culture, and understand their mindset.

Palachova, our university residence has all the necessary amenities to make the experience pleasant. We get spacious rooms shared with our flatmates, who in addition to being your family during the Erasmus months, teach you a lot about their culture.

If you have the opportunity to do your Erasmus at the UHK in the Czech Republic, don't hesitate. Coming here entails opening your doors to the world, it means knowing, understanding, and appreciating different cultures.

I celebrate these exchange processes and I thank FLACSO Ecuador, the European Union, and the UHK for this opportunity to enhance the skills of Latin American students.
