

We would like to inform you that you can use databases and e-sources with access from UHK (works in the dormitory too), which could be useful for your studies and spending free time. Please, find the list of them here.

There may be some difficulties with logging in some of them:

1) Jstor

It will probably ask you to log in on following webpage. "Uživatelské jméno" means your UHK login (without "@uhk.cz"), "Heslo" means password. Then click on "Přihlásit".

2) SAGE Journals

You can find an instruction of how to login here.

3) EBSCO

There shouldn't be any problem, just click on option marked on the picture below and select from options offered.
