

MY STUDENT EXCHANGE EXPERIENCE

JEONG CHANGHYUK

SOUTH KOREA

SUMMER TERM 2021-2022

On February 2, 2022, I arrived in the Czech Republic after many twists and turns. The journey to get a visa was very difficult, but I was able to solve it well with the help of my kind coordinator.

That's how the most brilliant semester of my college life began. The first thing to overcome was jet lag and cultural adaptation, and then to figure out what kind of country the Czech Republic is and how transportation works there.

Everything was completely new but I was excited and I wanted to do something special because I would spend the longest time away from my family in my life. So I wrote down my bucket list where I put as the first thing to travel freely.

I have explored so many places such as England, France, Italy, Greece, Turkey, Slovakia, Austria, Hungary, Germany, Poland, and Belgium. I felt strong, and I felt confident that I could do everything on my own.

My second point was to travel with a foreign friend, which I did. Among the possible destinations, most of Erasmus students chose to go together to France, Belgium, and Greece... And I have to say that I am very proud to have broken down the language barrier and move forward. In the third place, managing grades: I got an A in five of the six classes I took, and I was able to finish the semester with good grades.

Overall, the experience was brilliant. I was truly happy. Five months in Hradec Králové will be my lifetime asset. I carry good memories with me and use them well when I go back to Korea.

Thank you.
