

MY STUDENT EXCHANGE EXPERIENCE

KAMILLA OLEA MORTENSEN

NORWAY

SUMMER TERM 2021-2022

This semester, I have done an exchange year in Hradec Králové, which has been one of the best experiences ever. Personally, I didn't want to spend a semester abroad, but I am now very thankful that I did because I have had so much fun.

Hradec is a great place to study, as you are sort of in the middle of absolutely everything. What I mean by this is that you can travel anywhere you want in the Czech Republic and outside of the country. Taking the train is generally cheap as well, and it only takes less than 2 hours to get to Prague, which means you can easily go there whenever you want. Not only that but there are a ton of things to do in Hradec as well and it is a very pretty city. There are great places for dining, escape rooms, and zoos and there is also great nightlife. And on top of it, everything is within walking distance. Czech people are also very nice and understanding and even try to help you when you don't understand or speak the language.

The UHK is also a pretty good university where the professors are very flexible and understanding of every student's needs and help however they can and try to adjust the materials in a way everyone can understand and participate.

Personally, I have had a lot of fun this whole semester, especially when I made friends with a bunch of local Czech people that were fun to get to know and hang out with. I also enjoyed the courses as we got the chance to pick any course inside the Philosophical Faculty.
