

# MY STUDENT EXCHANGE EXPERIENCE

KEMAL GEYIKLI

TURKEY

SUMMER TERM 2021-2022

First of all, I would like to highlight that I am glad I went on this Erasmus. I am proud to have made what I believe is the greatest contribution to my educational life. On my first day in the Czech Republic, I was very excited and nervous, but after a few days, I started to understand its beauty.

Erasmus gave me the chance to build new friendships, and to know new languages and new cities. It showed the existence of life outside my own country and my own city. It gave me the opportunity to meet people from every country, and discover different cultures and different food.

On the other hand, I wouldn't be doing justice to this wonderful city if I didn't talk about Hradec Králové... On the first day, I toured the city alone and at some point, I stood in a corner and just watched the city. The city's unique structure, calmness, and security made me addicted to it.

Also, at the University of Hradec Králové, our professors helped us in everything, they did not treat us differently from their students.

Honestly, after all, I must recommend every student to seize this opportunity... I wish I could be on Erasmus my whole life.
