

MY STUDENT EXCHANGE EXPERIENCE

LUIS ANDRES ILIZARBE ZUÑIGA

ECUADOR

SUMMER TERM 2021-2022

For me, the experience at the UHK was very enriching not only because of the courses I took at the University but also because it is a good meeting point for students who come from all over the world and from whom you learn a lot.

The professors at the university are kind and tolerant and make your stay at the university much easier. Likewise, the administrative staff is understanding and tolerant and takes care that you follow the necessary procedures, so they are a great help.

The Czech Republic was a very interesting and exotic country for me. From what I had the opportunity to know of it, I really liked its places and its people. I think that coming to this country as an exchange student was one of the experiences that have taught me the most in these years.

People in the Czech Republic are very friendly and despite not speaking Czech one can generally communicate well for daily and university matters. The beautiful landscapes of the country and its charming cities full of history make it a magical place, in addition, the country is in the center of Europe, which makes it very easy to travel to many countries during the weekends. The academic environment is very friendly and the facilities are of good quality, and the courses are relatively demanding...

Overall, I feel very grateful for the opportunity that the city offers us, it is always very important to have new experiences and meet new people and acquire new knowledge, and this opportunity makes that possible so I encourage you to live it and enjoy it.
