

MY STUDENT EXCHANGE EXPERIENCE

MARIIA K HARDINA

RUSSIA

SUMMER TERM 2021-2022

I would like to start with thankfulness. The first semester I had online classes and lectures, but I got a very good friend with whom I still communicate, although she has already returned home. I even had an individual lecture because no one else chose «discourse theory in social work», so I didn't have a chance to study it badly, it helped me a lot.

The new semester started quickly and after two years of online study, I returned to the classroom again. All the subjects, which I chose were interesting and the teachers were very cool, too. This is the first university where I had physical education, thank you very much for this opportunity, because when I was in China and Russia, I didn't have this chance. During this lecture, I had the opportunity to speak in 4 languages (Czech, English, Chinese and Russian).

Also, one of our teachers took us to the Prague zoo, where we took an exam. To me, it was one of the most amazing places for having exams on: «modern theories of human nature» and «evolutionary ethics».

The study was intense and interesting but there was enough time and opportunities to meet new people - and this is the main thing!

I met new friends from different continents, and each one is a wonderful person. The greatest treasure is the luxury of human interaction. The greatest treasure is the treasure of communicating with each other!

And the biggest "thank you" I would like to say to the UHK since now I am together with my love. We have been dating for 7 years in distance, and for the last 1.5 years, we had not had the opportunity to see each other. Now we are married and I have the chance to stay in the Czech Republic with my husband. The UHK unites people, hearts, and families.
