UNIVERSITY OF NAIROBI KENYA

UNIVERSITY OF NAIROBI

First and foremost I want to thank the sponsors of this erasmus -EUROPEAN UNION program for the lifetime opportunity to study in Europe and for this case CZECH REPUBLIC.

It has been the best exposure, learning experience of its kind, morally, physically and above all in discovering myself. At the beginning it seemed very challenging to adapt to a totally new environment, new people, new weather patterns, new language and so forth. With time things started being easy and friendly. University of Hradec so far so good has been my home for the last five months and very instrumental to achieving my quest for knowledge, it had very great programs, human oriented lecturers and above all very conducive environment for achieving better studies, the studies were well conducted, I learnt PowerPoint presentation, oral presentation and organization of studies which I had very little experience. In class lecturers were willing to assist any minute even at midnight, they provided all the resources we need, provided thoughts and corrections effectively, their support was unmatched.

**Co-funded by
the European Union**

I cannot forget the support received from my coordinator at University of Hradec Kralove, vera kouřimová, she was so resourceful from the beginning to the end of the program.

Her guidance on the pickups at the airport ,to settling very fast ,studies and other Erasmus concerned matters her support was unmatched.

ERASMUS STUDENTS OPPORTUNITIES AT HRADEC KRALOVE

The surrounding had better resources for academic and health development, for example The research library, the museums, various fields and stadiums for physical development at Hradec Kralove. I had the pleasure of visiting them, the research library was well equipped with various academic and artistic activities and entry free of charge.

The education system was the best, the stag system UHK was programmed with timetables, examination dates, class notes, information from lecturers and most fascinating was the number of attempts you could register for sitting an exam, it gave students easy time to prepare and adjust to busy schedules.

voluntary activities were perfect especially cleaning the environment

visits to various castles was fantastic and a great learning experience for example castle of Pardubice

The university organized visiting professors' lectures which exposed us to various scholars from different environments

i may not manage to tell everything about the best Erasmus in the world ,all i can say in a summary is that it has opened my eyes ,boosted my view of the world and gave me more energy ,commitment and above all desire to pursue my dream not only in academics but social life which will be very instrumental to achieving my goals .

i would be glad to come back for PHD incase another opportunity rises ,Czech republic will always be my priority .

Those coming to erasmus in University of Hradec Kralove don't panic ,you are in the right place with right people ,enjoy the very best .
