

**Univerzita Hradec Králové
Filozofická fakulta**

When I came to Czech Republic, I would never have expected the good experience I have had in the last 10 months.

I came here without expectations, because the reality is that I didn't know much about this country, but now I can say that I am going back to my country, to Spain, very happy.

I found Hradec Kralove charming, cute and special, and we are very well located. I have loved the fact that apart from there being a city, there are many forests and lakes around it. I love the nature, and this place is full of it. Prague, which is an hour and a half from this small city, was one of the most beautiful things I have ever seen in my life.

It is a very well-located place in Europe and has great connections. I have travelled a lot in Europe by plane, train and bus. I have loved visiting and seeing cultures different from mine. I would recommend this Erasmus destination to everyone, personally I have learned and grown a lot.

In my faculty (philosophy) at the UHK university, I found the classes very interesting and less difficult than at my university in Spain. Everything is more dynamic. The professors are generally very attentive, and my coordinator has always helped me with everything.

Regarding the weather, even though it is very cold in the winter, I liked it very much because I have been able to live with snow.

I have made many friends who will stay by me for life and for that I will always be grateful.

Hradec Kralove has been a very good destination to come for Erasmus and I will never regret it, I recommend it to everyone.

I will miss living here, as well as the people, the food, and the place itself.
