

MY STUDENT EXCHANGE EXPERIENCE

PAULA MAESO MOYA

SPAIN

SUMMER TERM 2021-2022

My Erasmus in Hradec Králové has been incredible, I have been able to live many experiences and visit many places in Europe.

Personally, I have been living in Palachova for a year and I think it is a 100% recommendable experience for future students. The residence allows you to meet many new people -who in my case have become my family-. My roomies were incredible and I have loved living with them day to day.

This city offers you many plans to do: to go to the forest and have a barbecue, to spend a day in the pool, to go to the river and feed the beavers, to ride a bike through the city center or to drink a beer in one of the bars.

Regarding the trips that my group of friends and I have done, Slovenia, Greece, and Budapest were my favorites. But we also visited Germany, Poland, Malta, and Austria. The trains between countries are very cheap for students, which makes it much easier to go on several trips. I am also very grateful to the university; the teachers are good, and the study methods are unbeatable. I have learned a lot in class, and it was also another opportunity to meet new people. On the other hand, this experience has allowed me to improve my English a lot, since you are in contact with people of many nationalities.

I return to Spain with many friends and the opportunity to visit them in their respective countries.

I would definitely qualify my experience here as perfect.
