

# MY STUDENT EXCHANGE EXPERIENCE

SOFIA GIRALDO TOVAR

COLOMBIA

SUMMER TERM 2021-2022

There are many experiences I take with me: the places I visited and the people that I met and carry in my heart after having the opportunity to do an exchange semester in the Czech Republic. It is gratifying to realize everything I have learned, not only academically but also about life, about people, and the things that are really important. This experience, despite being challenging, enhanced my personal growth and allowed me to develop in different environments. Undoubtedly, I would repeat it again because it is very gratifying to learn so many things in different aspects of life. I can only say that I feel very happy to have lived every moment of this experience because every second was worth it.

Hradec Králové is a cute, cozy and small town where you can go for a coffee, beer or ice cream. There are also a couple of lakes to relax on and have a good conversation while enjoying some snacks. Prague is always a good idea; it is a magical city that makes you feel like you're dreaming. An elegant, imposing, classic and majestic city in which every corner provides you with something to enjoy and fall in love with. Throughout my Erasmus I had the opportunity to travel, and without thinking about it twice: Prague is one of my favorite cities, it's simply beautiful. Czech sweets are delicious: chocolate cookies, waffles, and desserts: Vetrník and Trdelník.
