My Erasmus experience has been unforgettable from the beginning to the end, and I think I will always remember it as one of the best months of my life, all this taking into account the circumstances of this year, I don't regret at all have come for Erasmus, and specifically to Hradec Králové. I think it is a quiet city but very well located, which allows you to travel and to know many places.

The experience at the UHK has been very good, and I have learned a lot. The teachers were very nice and made the classes fun. My coordinator has also helped me a lot. She was always willing to help us, and I appreciate it as she made things easier for us, especially at the beginning when I was more lost.

I think that the Erasmus experience is something that all students should live. In the beginning, I thought it would be complicated to be far away from my family, friends, and my country, but I was wrong; the atmosphere and the environment make you enjoy it to the maximum because the people around you are in the same situation as you.

Also, I have met wonderful people both from my country, Spain, and from other countries, and we have become great friends. It is an experience that has also allowed me to get to know different places and countries. The Czech Republic is a very central country, which makes it easy to travel to many places and many countries, and the trains are very cheap and easy to get to, something very important to take into account. In the Czech Republic, I have visited many times Prague, but I have also visited Karlovy Vary, Brno, Olomouc, Kutná Hora, Český Krumlov, Pardubice, and Adršpach. I don't know if I am forgetting some of them, although we have also visited some small towns in the region, I loved all of them.

Living far away from home has also made me grow and get to know myself, which I think is very important and beneficial. Studying at a university different from my own is something that I really enjoyed, a change of scenery. In short, I think that everyone should go on Erasmus and the Czech Republic is a good country for it, and you will not regret it.
