UHK & ALUMNI COMMENTS

Life in Hradec Králové was a pleasure, and I remember that during my doctoral studies I met great people. I will recommend everyone who chooses to have a good education while being happy where the human (student) is put first to select the Faculty of Informatics and Management of the University of Hradec Králové.

Sebastien Mambou, Republic of Cameroon

Erasmus is an experience full of energy, but don't forget to enjoy the little things, memories of simple moments are the most enjoyable things that you can get from the time you have.

Hradec Králové is your home for the semester, appreciate it as the best place to learn, laugh and meet amazing people.

Andrés Alejandro Pernía López, Venezuela

Getting to know people from all over the world makes you feel like you are travelling even while being in the same place. Moreover, I had amazing support from the university for everything, even before my arrival. I will not forget and I am very grateful.
