## **PART TWO**

### **SCHOLARSHIPS AND BURSARIES TO STUDENTS OF BACHELOR'S AND MASTER'S PROGRAMMES**

#### **Article 3**

##### **Scholarship for Outstanding Academic Achievement**

- 1) The Scholarship for Outstanding Academic Achievement may be awarded to a student enrolled in a Bachelor's or Master's programme who has demonstrated outstanding academic performance in the relevant academic year.
- 2) The Scholarship for Outstanding Academic Achievement may be awarded only once per academic year within a single study programme.
- 3) The Scholarship for Outstanding Academic Achievement shall be awarded by the Dean to students who, in the relevant academic year, have obtained at least 60 credits, have successfully completed at least four classified subjects, and have achieved the required grades. Student status in the relevant academic year shall be verified as of the date of the decision on the award. The primary criterion for the award is the student's average grade for the academic year, calculated as a weighted average in accordance with Article 15 of the UHK Study and Examination Code. The amount of the scholarship shall be determined in accordance with principles established by the Dean.
- 4) The Scholarship for Outstanding Academic Achievement shall not be awarded to a student who has transferred between study programmes during the relevant academic year, as defined in Section 54b of the Act.
- 5) The Scholarship for Outstanding Academic Achievement shall be paid as a one-time payment on a date determined by the Dean in agreement with the UHK Finance Office.

**PART THREE**  
**SCHOLARSHIPS AND BURSARIES TO STUDENTS**  
**OF DOCTORAL PROGRAMMES**

**Article 4**

**Doctoral Bursary**

- 1) A doctoral student who is enrolled in a doctoral programme for the first time shall, upon request, be awarded a doctoral bursary, provided that the programme is full-time and completed within the standard duration of study. Previous enrolment in a doctoral programme shall not be taken into account unless it was at least partially undertaken in a full-time form of study.
- 2) The monthly amount of the doctoral bursary under paragraph 1 shall be determined as follows, depending on the doctoral student's income from the doctoral programme within the meaning of Section 91a(1) of the Act:
  - a) Where the income consists solely of a doctoral bursary, the amount shall correspond to 1.2 times the minimum monthly wage, rounded up to the nearest ten Czech crowns;
  - b) Where the income also includes a monthly wage or salary for work within the meaning of Section 91a of the Act, the amount shall be calculated by subtracting two-thirds of such wage or salary (rounded down to whole Czech crowns) from 1.2 times the minimum monthly wage (rounded up to the nearest ten Czech crowns). If the resulting amount is zero or negative, the doctoral bursary shall not be awarded. For the purposes of this paragraph, the monthly wage or salary shall mean the gross amount stated in the wage or salary statement or in the employment contract.
- 3) The doctoral bursary under paragraph 1 shall be awarded for a period of one semester, in the monthly amount specified in paragraph 2, for the standard duration of study. For the purposes of this Article: the winter semester shall run from September to February; the summer semester shall run from March to August. The final month of the standard period of study for which doctoral bursary may be awarded shall be deemed to be the month in which the student is enrolled on the last day of that period, provided that the student studied for at least 15 calendar days in that month. If a doctoral student enrolls during a semester for which doctoral bursary shall be awarded, the first month for which the bursary may be awarded shall be the month of enrolment, provided that the student studied for at least 15 calendar days in that month.

- 4) The doctoral bursary under paragraph 1 shall not be awarded, or may be awarded at a reduced amount, if an evaluation of the fulfilment of the obligations set out in the doctoral student's individual study plan pursuant to Article 38(3) and (4) of the Study and Examination Code for the previous semester demonstrates serious non-fulfilment of those obligations. Where, following such an evaluation, the student's fulfilment of obligations in the subsequent semester is at least satisfactory, the bursary may be reinstated or awarded in full for that semester.
- 5) The doctoral bursary under paragraph 1 shall be increased if, due to a reduction or cessation of the monthly wage or salary referred to in paragraph 2(b), the amount determined under paragraph 2(a) would otherwise not be reached. In such cases: the bursary under paragraph 1 shall be increased to the amount specified in paragraph 2; the increase shall take effect from the month following the month in which the doctoral student's wage or salary was reduced or ceased. Proceedings to increase the bursary may be initiated ex officio. The bursary may also be increased, for the reason specified in this paragraph, upon the doctoral student's request, including for part of a semester.
- 6) The doctoral bursary under paragraph 1 shall be reduced if, due to an increase in or commencement of a monthly wage or salary referred to in paragraph 2(b), the income threshold under paragraph 2 would be exceeded. In such cases: the bursary shall be reduced to the amount specified in paragraph 2; the reduction shall take effect from the month following the month in which the doctoral student's wage or salary increased or commenced. Proceedings to reduce the bursary may be initiated ex officio. The bursary may also be revoked, for the reason specified in this paragraph, including for part of a semester.
- 7) Paragraphs 1 to 6 shall also apply to doctoral students who have been enrolled in the doctoral programme and whose first period of study in the relevant study programme began before 1 September 2025, provided that the scope of obligations under their individual study plan corresponds to that applicable to students whose studies commenced on or after that date.
- 8) The doctoral bursary shall be paid monthly. Payment dates shall be determined by the Dean in consultation with the UHK Finance Office.
- 9) The doctoral bursary shall not be paid for any month in which the student interrupts or terminates their studies, or ceases to meet the eligibility conditions under paragraph 1, unless the student studied for at least 15 calendar days in that month. Where a student re-enrols after an interruption of studies, the bursary may be awarded or paid analogously in accordance with the final sentence of paragraph 3.
