

Hradec Králové, 25th September 2020

Dear Students and Colleagues,

Please pay attention to the following text.

I believe that you carefully follow the changes in the current epidemic situation and expect announcement, whether we can start this academic year on Tuesday, September 29, 2020 according to the schedule planned.

As you have probably noticed thanks to the mass media, some universities have been already forced to change to online education (usually decided by the regional authority for public health). This could happen at the University of Hradec Králové as well within couple of days or weeks. At the moment all depends on the current situation in the Hradec Králové region.

That is why I ask you all to monitor the current situation, to visit [this UHK website regularly](#) but also follow the information from your faculty, that will give you updates on current COVID-19 situation regarding the education and precautionary measures taken.

The University of Hradec Králové is fully aware that adequate steps will have to be taken to protect health and safety of all students and staff in the following academic year. On the other hand we would like to keep our university as functional as possible and continue in its mission.

I wish us all to overcome these difficult times in good health and manage the current situation with dignity as it would be expected in case of higher education institutions no matter how much others make the situation complicated for us.

Best regards

prof. Ing. Kamil Kuča, Ph.D.
rector
