Welcome to the Czech Republic

General information

The Czech Republic (Czechia) is a landlocked country located in Central Europe bordered by Germany, Poland, Slovakia and Austria. The country is divided into thirteen regions, plus the capital city and region of Prague.

Useful facts

The Czech economy is based on industry and manufacturing, especially the automotive sector. Car production alone makes up almost 20% of all exports and hundreds of thousands of people across the country work in the industry.

The official language is Czech. It is a Slavic language that is mutually intelligible with Slovak, and roughly intelligible with Polish.

While approximately 86% of our neighbours believe in God, only 22% Czechs say the same thing. Czechs support legal abortions (79%) and same-sex marriage (58%).

Traditions

Easter

In the Czech Republic, the tradition is that men chase women around the village and spank them softly with a whip woven from branches. Don't worry, they do it to guarantee the women another healthy year and to preserve their youth and beauty.

Wine harvest

"*Vinobraní*" is a traditional Czech grape harvest festival celebrating the end of the wine-growing season. It features vibrant parades, folk music, dancing, and the tasting of local wines. The festivities reflect the rich cultural heritage and communal spirit of the Czech wine regions.

St. Nicholas

"*Mikulášská obchůzka*" is a traditional Czech St. Nicholas procession held on December 5th. St. Nicholas, accompanied by an angel and a devil, visits homes to reward well-behaved children with treats and remind the naughty ones to improve. This festive event blends joy, folklore, and a touch of moral teaching.

Weather

Watch **UHK Guide #7**

The climate of the Czech Republic varies from season to season. ←

Transportation in Hradec Králové

Hradec Králové has an extensive cycling network and the best way to get around the city is on **bikes** and **scooters**. The cycling network is about **80 km long**. If you don't want to buy a bike, you can use the Nextbike service.

All trolley and electric bus timetables are available at the **Public Transport Company of Hradec Králové** website. Alternatively, you can also use the **IDOS** mobile app.

Landing in Prague? In this quick guide, we show you the most comfortable and budget-friendly option to reach UHK Halls of Residence (Dorms) with ease.

Main Railway Station and Public Transport Terminal

The Czech Republic has a pretty neat railway net. You probably arrived to the **Main Railway Station in Hradec**, hop on a train and discover more beautiful cities. Connections information and tickets available in "**Můj vlak**" app.

Public Transport Terminal is a HUB for buses. There are various transport companies but all information is gathered there.

Just remember that bus lines 24 and 4 will get you to *Palachova* bus stop (the dorms) and line 2 to *Na Brně* bus stop (also close to the dorms).

You can get to the university bus stop *Kampus UHK* (Campus Na Soutoku) by bus number 16, 19, 23 and 33.

Ticket purchase

The easiest way to buy a bus ticket is on the bus using a contactless payment card. However, you can also buy a paper ticket at a newsstand or directly from the bus driver.

If you plan to use public transport every day, we recommend registering in the Client Zone, where you can purchase a season ticket. You can register online or at one of the customer service centres.

nextbike

Bicycle-sharing service **nextbike** is an official partner of UHK. There are four stations near the UHK campus. Between buildings C and B, in front of building E, in front of building S and right next to the Palachovy dorms.

A complete map of all the stations can be found at:

nextbikeczech.com

If you sign up for a Nextbike account with your university e-mail address, you will get CZK 200 as credit!

Thanks to support from the City of Hradec Králové, the first 15 minutes of every ride are free. Rides starting or ending at the Kampus UHK station include an additional 15 minutes free of charge.

Courses

Czech students take obligatory, semi-obligatory and voluntary courses. Your study plan is different and tailor-made just for you. Please remember to submit your preferences to the International Office in time!

[Course Catalogue 2026/2027](#)

Lectures

With some courses, a guarantor (associate professor or professor) may give non-obligatory lectures. You need to attend these lectures if you want to pass the course.

Seminars

Apart from lectures, you may also need to attend seminars. These are more practical and are designed to further the knowledge you gain at lectures. They are also **obligatory**, so make sure you show up!

Credits

UHK uses the European Credit Transfer and Accumulation System (ECTS). You gain credits for successfully passing a course.

Pre-exams

You must meet certain criteria to be allowed to sit the final course test. You may be required to write an essay or give a presentation, for example.

Sustainable UHK

Behave responsibly!

The university does what it can to help the environment. Join us in maintaining the conditions to preserve our planet Earth.

The tap water in the Czech Republic is drinkable!

Save energy!

If everyone at the dorms makes 2 cups of tea with one liter of hot water per day, we will needlessly pay EUR 12,000 for electricity consumption per year. Heat only the water you need, switch off unnecessary lights, turn off electronic devices that are not in use.

Save water!

When using the toilet, consider if it is possible to use a smaller flush button. Take brisk showers and do not leave the tap open unnecessarily.

Building in UHK campus have Filtermacs, machines that save unnecessary plastic bottles. Simply download the app "Lokni".

Sort waste!

The management of sorted waste is five times cheaper than mixed waste. By sorting the waste, you help the environment and also your budget. Rising expenses affect the rent at our dormitories.

Sorting recycled waste

In the Czech Republic 3 out of 4 citizens sort and recycle their waste. You can also help to preserve a healthy environment by learning how to properly sort waste. The rules differ from country to country but also from city to city! Here's how it works in Hradec.

Papír = paper

For clean paper of all sorts.

Plast = plastic

PET bottles, clean plastic packaging and also TetraPak (e.g., milk box).

Sklo = glass

There are two types – clear and the rest (green, brown mostly).

Bio = bio waste

Only organic waste from kitchen.

Směsný odpad = general waste

Simply everything else.

Kov = metal

Sometimes there are also these gray containers that are used for metal (empty drink cans, broken but clean kitchen utensils and food cans).

Safe UHK

UHK wants to create a **safe environment** for all people in the community. Therefore, **UHK's safe environment principles** were defined, mainly derived from the **Code of Ethics of the University of Hradec Králové**.

The goal of **Safe UHK** is to help prevent inappropriate behaviour and provide more detailed information on solution options and support persons who encounter inappropriate behavior.

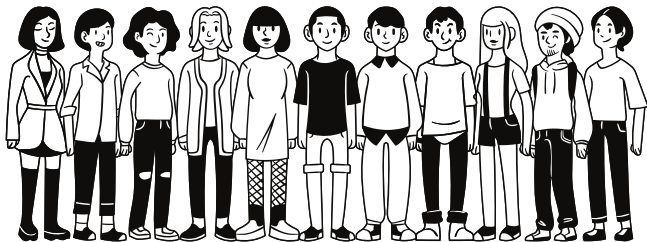

The complaint to investigate a violation of the **Code** can be made by submitting it via e-mail **etickakomise@uhk.cz** or physically in paper form to the UHK Registrar.

The Ethics Committee handles all complaints regarding violations of the Code. **The Rules of procedure of the Ethics Committee UHK** define further details and requirements for filing a complaint.

UHK condemns all forms of violence and, in the context of sexually motivated violence, recommends using the instructions in the **following video**.

**We want everyone to feel good at UHK,
so always treat others with dignity and respect.**

A word from other international students

I will forever cherish the time spent at UHK and the memories I've made in the Czech Republic. The most valuable part of my studies is all the different people I've met and had an opportunity to learn from. I loved that the UHK culture focused not only on providing students with relevant knowledge but also on building the university's identity around friendship, humanity, and unity.

Sara Spahić

Bosnia and Herzegovina

Life in Hradec Králové was a pleasure, and I remember that during my doctoral studies, I met great people. I recommend everyone who chooses to have a good education while being happy where the human (student) is put first to select the University of Hradec Králové.

Sebastien Mambou

Cameroon

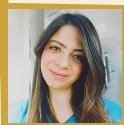

Life is made of narratives and stories, and I am delighted to have the UHK and the experience of living in Hradec Králové with me. Even if I choose not to settle in Hradec Králové, I will carry in my heart all the people I have met, all the pleasant evenings at the pubs with my friends, the long political discussions I had till late hours, and all the time I have spent at the university.

Gabriel Olegário

Brazil

My decision of studying at UHK was one of the turning points in my life, given the numerous experiences, like joining conferences across the world, writing articles, and being a part of university projects. During my studies, I improved my computer and writing skills and English language and brought a lot of useful cognition and culture to my academic life by meeting new scientists.
